Configure soft delete

Undelete CloudBlockBlobs in .NET

```csharp
var blobResultSegment =
    await cloudBlobContainer.ListBlobsSegmentedAsync(null, true,
        BlobListingDetails.Deleted, null, token, null, null);

var deletedCloudBlockBlobs = blobResultSegment.Results
                .OfType<CloudBlockBlob>()
                .Where(c => c.IsDeleted);

foreach (var cloudBlockBlob in deletedCloudBlockBlobs)
{
    await cloudBlockBlob.UndeleteAsync();
}
```
